

Sprint 1 Plan
Barter
Completion date: 2/5/2018
Revision #1
Revision date: 1/22/2018

Goal: The goal for the first sprint is to create the basic structure and functionality of the web app, as well as set up a backend database.

Task listing, organized by user story:

User Story 1: As a developer, I want to learn the technologies involved in this project (21 SP) (25 Hours)

User Story 2: As a user, I want to login/out of my account (8 SP) (10 hours)

- Make firebase, connect firebase (2)
 - Install axios (1)
- Header with login button (5)
- Hero sign-up section (1)
- Router (1)

User Story 3: As a user, I want to add / edit items to my inventory (13 SP) (25 hours)

- Profile page (1)
- Add form
 - Create form (2)
 - Submit function (5)
- Edit
 - Modal when click edit (5)
 - Pre-populated form (3)
 - With delete/submit buttons (3)
 - Delete (3)
 - Handle public and private items (3)

User Story 4: As a user, I want to be able to create a listing (5 SP) (5 hours)

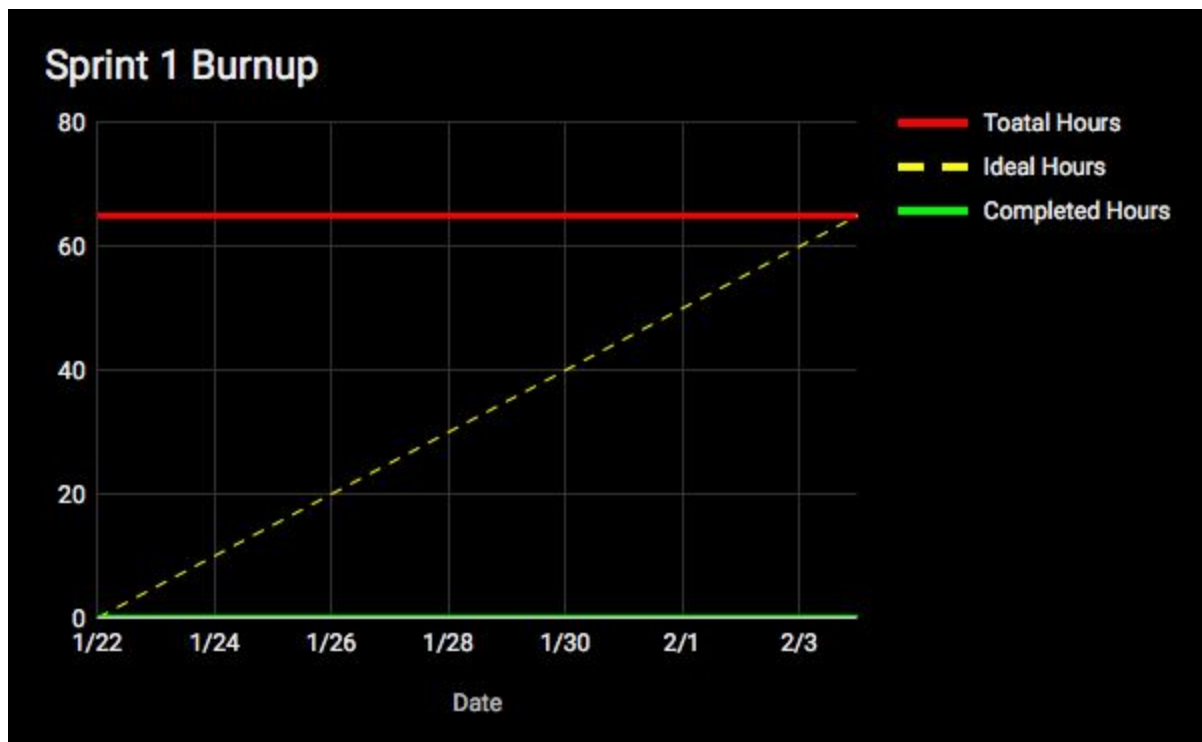

- Toggle in form to indicate the item is for bid or for listing only
 - Public vs user only info
 - Maybe? 2 firebase data base for public or private listing (5)
